You may provide a brief narrative to demonstrate additional experience in surveying and monitoring outside of specific project work listed above.

- a. Provide company or agency you represent; if self-employed enter self-employed or name of your business.
- b. Project Name (e.g. name of solar plant, transmission line, gas pipeline, etc.)
- c. Start and end date of field activities for each project.
- d. To the nearest whole day, enter number of calendar days spent in the field on project.
- e. Total number of hours monitoring construction activities - do not include travel time.
- f. Total number of hours conducting surveys (USFWS protocol, pre-construction, clearance, line distance, and/or fence etc.) - do not include travel time.
- g. Total number of tortoises you processed or helped process while under the direct supervision of an Authorized Personnel. Processed means: weighed, measured, and/or marked.
